for Otto Evo

Welcome

Established in 1992, Ansell Lighting is a recognised market leader in the design and manufacture of high quality luminaires for the commercial, domestic, industrial and architectural markets, exporting to more than **20 countries worldwide**.

We supply lighting fixtures for a wide range of applications, including hospitals and surgeries, hotel and leisure premises, schools and colleges, offices, warehouses, Ministry of Defence sites and residential buildings.

In 2014 Ansell Lighting was bought by **Endo Lighting Corporation of Japan**, as part of its global business expansion. The combination of Endo's reputation, LED expertise, R&D facilities and manufacturing capabilities have allowed Ansell to continue to go from strength to strength, achieving significant year-on-year growth.

ENDO
LIGHTING CORP.

Headquarters
Osaka, Japan

Ansell Lighting's commitment to in-house design innovation, continuous investment in technology and infrastructure, and focus on product quality and reliability, is complemented by our dedication to deliver outstanding customer service and expert after-sales technical support.

We are proud to reach our **30th anniversary** of trading with a raft of awards that recognise us as industry leaders. In 2021 alone we were named Manufacturer of the Year in the Northern Ireland Electrical Awards as well as several other high profile and prestigious industry awards for product innovation and customer service.

We have also won Product of the Year awards for Orbio360, Tornado Pro, OCTO and Otto EVO

Assembly

Ansell Lighting has become a byword for innovation, quality and unparalleled customer service in the wholesale and specification markets we supply.

Our customers come back to us time and again because they are confident they will get the products they want, when they want them. This includes next-day delivery and same-day collection as standard.

The Ansell Lighting design team employs comprehensive product knowledge, technical experience and creative talent to deliver the perfect solution for interior and exterior project applications every time. We combine technical superiority with functional simplicity to make our products the 'professionals' choice'. We factor in the knowledge and experience of electrical contractors at the development stage to ensure that installation, wiring, maintenance and servicing of our products is swift and easy.

As an LIAQA-assured company and a member of the Lighting Industry Association (LIA), Ansell Lighting was proud to receive the coveted LIAQA award for our commitment to quality in 2019.

Ansell App

The Ansell Lighting App gives customers information about our products and services at the touch of a button, wherever they are.

In addition to product search and scanner function, the easy-to-use app includes options such as a ready reckoner to aid budget planning and an energy saving calculator to keep sustainability targets on track
